gain urged upon the dock companies that ship owners be allowed to employ their own men in loading and unloading vessels. The dry dock companies have refused, but have arranged to present their views in writing to ship owners.

The Tower Hill strikers met this morning and decided to continue the strike. Donations of £3,000 were received to-day. Contributions have been received from France, Germany and Switzerland.
At Rochester the police were compelled to protect men unloading vessels, who vere attacked by strikers.

The dock officials say they now have at work a greater number of men than at any time since the commencement of the strike and do not propose to make any conces-

sions.

It is betieved the dock directors will yield by Thursday. Mr. Norwood sent a telegram requesting a conference late this evening. Burns, addressing a meeting to-night, justified the manifesto calling a general strike on the ground that it had drawn greater attention to the appeal for funds. He appropried that he intended he has been viewing it askance now for nearly six months. Gen. Greene's term is about to expire, and action has been forced upon the president. At the interior de-
